

**REMARKS**

The Examiner has stated that the Appeal Brief is not in compliance with 37 CFR 1.192(c)(5) because it does not contain a concise explanation of the invention defined in the claims involved in the appeal, which refers to the specification by page and line number, and the drawing, if any, by reference characters.

Enclosed herewith is a corrected Appeal Brief that overcomes the above objections. In particular, Appellants have corrected the summary of the invention to be in compliance with 37 CFR 1.192(c)(5) by including references to the specification by page and line number and to the drawings by reference characters.
